Atos Unify OpenScape Desk Phone CP Family

Atos

# Digital workplace communication at the desktop - it's voice, and so much more

The Atos Unify OpenScape Desk Phone CP family brings expanded interoperability, the power of simplicity as well as the high quality audio you expect from our devices. We believe the desk phone needs to do more and these phones earn their place on the desk.

Stay connected, responsive and collaborative with our environmentally responsible CP phone family.

There's no substitute for a voice call when you really need to connect - when time is precious, when you need clarification or immediate decisions, when everyone needs to be heard, a voice conversation is simply the best choice.

But the communication tool landscape gives users, teams and even devices themselves, choices in how, what and when to communicate. The role of voice communication and the desk phone is playing out as workplace digital transformation unfolds.

Atos Unify, together with world renowned product design firm Frog Design, took a proactive, thoughtful look at the role of the desk phone and its place in the new way to work. What we created balances the core purpose of instant, secure and reliable voice conversations with modern use cases for a more interoperable, future-proof family of phones, ready for an evolving communication ecosystem.

Based on the key principles of focus, interoperability, intuitiveness and beauty, the OpenScape Desk Phone CP family of devices bring:

- Streamlined form and function, with redesigned desk phone features.
- Rapid on-boarding of new employees with easy set up and an intuitive interface.
- Auto-pairing and locking via Bluetooth
- More to the footprint with Eddystone Beacon URL sharing
- The secure, high quality call experience you expect.
- A unique blend of form and function
- Reduced communications bottlenecks with built-in Gigabit Ethernet and UC integration on most devices
- High definition AudioPresence HD™ voice technology, so staying in touch sounds great
- TDM and IP options

It's your communication point

The power of simplicity from a desktop device

Atos Unify OpenScape Desk Phone CP200T, CP205
We took the evolution of the entry level desk top device seriously, delivering a feature rich, cost effective phone with superior audio quality, ideal for many users with UC / CTI support. A TDM option is also available.

Features CP200T
